PENETRATION

DYES FOR LEATHER by SOFTER COLOR

Softer Color, with more than 30 years of experience in the field, is the leader in the production and sale of a wide range of dyes for all industrial sectors, including the tanneries market.

We are therefore pleased to introduce our new leather catalog.

Our range of colors is made up of

- **Beige:** Researched to obtain various pastel shades
- **Penetration:** chosen for high penetration
- **Economy :** Studied to get a high value strength - price
- **Wet blue:** metal complex recommended for a high quality leather (prem)
- **Metal free:** recommended for a high quality leather (no prem)

Our wide range of dyestuffs offer concrete solutions for all our customers located in Europe, North Africa and America.

Through the creation of the right internal synergy, Softer Color takes care of its employees' health through high standards of safety and quality of work as well as the surrounding environment through the ISO 9001: 2015 certification; also shows a particular interest in social responsibility through the REACH registration of the products marketed.
